the affordable retail through-the-wall

OPERATIONAL SERVICES

Tranax makes your ATM ownership experience as easy as possible.

WebRMS is a web-based monitoring and cash management solution that ensures a reliable network of ATMs. Instant alerts on your cell phone and via email, as well as online access to electronic journal records, allow you to monitor the health of your ATMs 24/7. WebRMS increases your ATMs' uptime and lowers your operational costs.

Tranax Extend offers ATM owners a worry-free investment in a Tranax ATM beyond the standard manufacturer's warranty. If a component of an ATM covered under Extend is in need of repair, Tranax will promptly ship a working replacement part at no charge.

Discover the Tranax Mini-Bank 2100T.

The **Mini-Bank 2100T** now offers retail locations an economical through-the-wall ATM solution. Designed around a robust yet compact architecture, the unit offers a high degree of **flexibility for installation** and mounting. Utilizing field-proven components found in many other Tranax retail ATMs, including the receipt printer, cash dispenser and CPU, this unit offers a **weatherized** construction.

The Mini-Bank 2100T retains the **reliability and low maintenance** you've come to expect from Tranax, featuring a standard 2000 note capacity cassette, optional rear service panel, and **sun viewable LCD**. With the look and feel of a bank machine at the **cost of a retail ATM**, the Mini-Bank 2100T meets all regulatory guidelines including full **Triple DES compliance**, a **VISA Lab Certified Encrypting PIN Pad** and ADA compliant voice guidance system as standard.

Mini-Bank 2100T Series

Proven Mini-Bank 2100 series dispenser with locking reject bin and 2000 note cassette, slides out easily for service access

ADVANCED APPLICATIONS

TranAccess is a set of value-added applications that can be combined with traditional ATM functionality to form a compelling solution. Prepaid telecom, Western Union® money transfers, and check cashing are the first of many applications to be introduced that will help generate additional revenue streams.
